6/17/10

Josh and Alan,

I wanted to write a letter of thanks to you and everyone at Neshaminy Collision for 22 years of outstanding service for our dealership. The reasons we stayed with Neshaminy for all these years are simple: superior customer service and body work. Over the years we never received a single customer complaint. On the contrary, all of the letters we've received from customers spoke of your exceptional performance.

From a business partner perspective, I was able to rest at night knowing all was well with the body shop. Even the smallest details were being handled by you, without the slightest distraction to other dealership operations.

I believe our dealership would have continued its relationship with your body shop for another 22 years had we not purchased another dealership that happens to have a body shop. I wish you luck going forward although you won't need it since you are the best body shop in the area.

Thanks again!

Glenn Davis
