*"I am writing on behalf of your service organization. I am also in the service industry for 25 years now. It is all too often that people only call back when there is a complaint. I am calling back to express my total satisfaction with your company. I had my car repaired there several years ago. It was a good experience then. I recently brought my daughter's car in for repair. All of the work was done on time as stated and I would recommend your company to anyone that asks. It was a pleasure dealing with you and your people."*
